

DOOGA

BEDDING

SOFA COLLECTION

DOGA BEDDING

It all started as a small furniture atelier named, Bahcekapi mobilya in 1992. Our company acquired an institutional name called Doga Mobilya in 2006 and has continued to produce in its integrated facilities ever since. We have a production space of 5000 m2 where we process wood & metal frames and where we do upholstery of sofas, chairs and boxspringbeds.

We also have our own mattress department where we produce handmade mattresses with natural materials. As we serve the industry's leading companies as manufacturing partners, our production is performed in accordance with the requirements of the companies we work with. With years of experience, quality and series, production has been determined as the constant mission of our company. With the difference we have made, we are always at your service with different designs and different products.

Alongside these developments, we've been constantly providing our service to Holland and Germany from back in 2010. In the year 2018 we've established Doga Bedding. Doga Bedding is focused on boxsprings bedbases and mattresses for these markets. Of course we keep our products in our own depot. From this point on we manage to deliver within Europe. Even when we already have a lot of outsourced work from major brands, we specialize in producing the most top segment products that can be made. We can therefore offer these products under our brand name Doga bedding with very competitive prices. Long story short, at Doga Bedding you get a top segment product for the price of an entry-level segment product.

MINIMALIST DESIGN

CARINA

CORNER SET

CARINA It offers you a great advantage with its practical design and bed functionality. Thanks to its minimalist design, the Carina corner set, with which you will have a pleasant time, is presented with fabric alternatives to your liking.

LOFT
DOUBLE SOFABED
**CENTER OF THE
LIBERATING
MOVEMENT**

With its functional design that saves space in living spaces in the new season, where we get rid of excesses, the LOFT 2-seater sofa bed stands out with its feature of being both a sofa and a bed in narrow spaces, and is at the center of this liberating trend.

FLAMINI
SINGLE SOFABED
**IN NARROW SPACES,
BOTH SOFA AND BED**

The Flamini single sofa with its functional design that saves space in living rooms is ideal for the new season when we are getting rid of excesses. It is a product that you can use as a guest bed at home or to rest at work because it can function as both an armchair and a bed in narrow spaces.
